

Villa For sale in the Monte Mayor Valley

The projects of Vitae Villas are designed and built for comfort, pleasure and well being, embracing the environment at its best. From inception to completion, every setting is unique and customized to the plot, the orientation and the views, offering an outstanding quality product that responds to the most demanding taste. This hidden gem is completely integrated with the mountain plot nestled in the Monte Mayor Valley. One of the most ingenious designs in the Vitae Villas portfolio, the villa K7 offers privacy and spectacular views through the green valley towards the Mediterranean sea. It is one of the villa projects in the “K Quarter”, a section of Monte Mayor that is known for privacy, pristine nature, and unfettered views. Each villa is completed to an absolute standard of excellence in engineering, materials and craftsmanship. Guided by principles of green and sustainable design, the project is adapted to the natural setting, integrating inside and outside spaces, and engaging people with their surroundings and environment. The villas have a limited footprint on the natural environment and feature green roofs, solar energy, drought tolerant landscaping. This green approach enhances indoor environmental quality and creates a reliable, low impact, low maintenance habitat without compromising comfort and luxury.
